

Specific Conditions for Contracting and Using Advanced Signatures

The present terms and conditions regulate the license of use that SESAME HR grants to the CLIENT in relation to the “Advanced Signatures” functionality.

By proceeding with the installation of the electronic signature module “Advanced Signature” on the SESAME HR platform, you declare that you have read, understood, and fully accepted these Specific Conditions applicable to the use of the module.

The **Signature Module** provided is offered as a technological tool intended to facilitate the management, collection, and storage of electronic or digital signatures between the user parties.

SESAME does not guarantee or assume any responsibility regarding the legal validity, evidentiary force, or legal effects of the signatures obtained through the Signature Module, since such circumstances depend on the applicable regulations in each jurisdiction, the type of document signed, and the specific use that the client makes of the tool, without prejudice to the obligations and responsibilities that the current regulations apply to SESAME as a service provider.

The client acknowledges and accepts that it is **their sole responsibility**:

- To verify that the use of the Signature Module complies with the legislation, regulations, and legal requirements applicable in their country or sector.
- To determine whether the documents electronically signed using the module are legally valid and sufficient for their specific purposes.
- To obtain independent legal advice if necessary.

SESAME shall not be liable for:

- Direct or indirect damages derived from the use or impossibility of use of the Signature Module.
- Claims, legal disputes, or sanctions related to the validity or invalidity of electronic signatures generated using the module.
- Misuse, unauthorized use, or use contrary to the law by the client or third parties.

The CLIENT acknowledges and accepts that they have proceeded to correctly verify the identity of the recipients/participants of the documents sent for signature in advance.
